

Job Title: Web Developer	Contract type: Permanent
Department: Web Builder	Date: April 2017
Reporting to: Team Leader	Contact: recruitment@kerridgecs.com

Position Overview

- Kerridge Commercial Systems (KCS) is the market leader in developing and delivering fully integrated business management solutions for distributors, suppliers, resellers, wholesalers and merchants. Our mission is simple: to design, implement and support high performance systems that enable our customers to source effectively, stock efficiently, sell profitably and service competitively.
- K8 Web Builder Software allows the customer to make their products quickly and easily available online, without expensive website development.
- This role will primarily involve development of new tools and features to evolve the product as part of a development team, and delivering fixes for customers.

Main Duties and Responsibilities

- Carry out programming tasks from specifications against specific project timescales
- Conduct unit testing on own code with documented summary test plans, and fixing errors
- Submit code for peer review and make modifications in line with feedback received
- Participate in peer review of code and specification, making suggestions to increase quality
- Schedule own time to deliver against assigned priorities in line with agreed project timescales
- Provide clear updates on progress against assigned tasks
- Escalate problems and exceptions that need to be addressed in a timely manner, with suggested solutions and workarounds

Knowledge and Experience

Essential

- .NET Web Developer skills including ASP.NET, C#, Webform, SQL server, T-SQL, JavaScript, JQuery, HTML, CSS, XML
- 2:1 degree or above (or expected) in Computer Science, Mathematics, Physics or other numerate
- Excellent A-Level grades (or equivalent) including mathematics
- Experience developing software to a professional or academic standard
- Have a passion for software design and development

Desirable

- Skills in MVC, Razor, responsive design
- Web services experience
- An understanding of e-Commerce websites
- Integration with JQuery controls and third party tools like Google Analytics, social sites, payment providers
- Work experience on commercial websites

Other

- This role will involve travel and therefore a valid UK driving licence is essential

Remuneration:

- The salary and package are commensurate with the role and experience
