<p><b>Autocat for ERP One (K8)**</b></p>	<p>Autocat is an electronic product catalogue within which a user may search for, and access details of, automotive parts. The search may be invoked from within ERP One (K8). Additional licence fees apply.</p> <p>Please refer to the Autocat Summary Factsheet for further details.</p>

<p><b>ERP Go Premier**</b></p>	<p>ERP Go Premier is a cloud-based business management software for businesses who buy, stock and sell products. It enables businesses who buy, stock and sell products to take full control of their entire business, all from one connected cloud-based system.</p> <p>Please see the ERP Go Premier fact sheet for more information.</p>
<p><b>ePOS for ERP One**</b></p>	<p>ePOS is a point of sale application for use with ERP One. It supports in-store sales processing, including item scanning, transaction handling, and payment processing. The application uses product, pricing, and stock data from ERP One. When a connection is available, this data is kept aligned between systems.</p> <p>Please see the ePOS fact sheet for more information.</p>

## Additional Third-Party Software

Third-Party Terms apply to additional Third-Party Software.

<b>Product</b>	<b>Description</b>
<b>Oracle ASFU licence *</b>	Oracle application specific full use licence.
<b>Oracle Linux **</b>	Oracle Linux operating system provides the latest innovations, tools, and features that enable you to innovate, collaborate, and create solutions across traditional, cloud-based, and virtual environments.
<b>Oracle Full Use *</b>	Oracle full use licence
<b>Klipboard</b>	<p>Klipboard is Field Service Management software that provides support for businesses who perform service jobs, project and maintenance management. Klipboard is available on a SaaS basis and can be licensed under a selected plan. Each provides access to a set of the Klipboard features.</p> <p>Please refer to the Klipboard Factsheet for more details.</p>
<b>Skynamo**</b>	<p>Skynamo is a field sales app built for manufacturers, wholesalers, distributors and importers who sell and service customers in the field. It puts every tool your sales reps need — customer information, product catalogues, pricing, order capture and call reporting — into a single mobile app that works online or offline. Skynamo eliminates duplicate data entry, gives managers full visibility of field activity, and helps sales teams spend more time selling and less time on admin.</p> <p>Please refer to Skynamo fact sheet for more details.</p>
